

2019 CSI HEART FAILURE CONFERENCE

CSI HEART FAILURE CONFERENCE

JULY 20, 21
HOTEL LE-MERIDIEN, KOCHI, KERALA

IN ASSOCIATION WITH

Improving Heart Failure Outcomes in India

We are pleased to invite you to attend the 3rd CSI Heart Failure Conference 2019 at Hotel Le Meridien ,Kochi on July 20-21 2019. This conference is being organized by CSI Heart Failure Council in collaboration with CSI Kerala chapter.

Heart failure is the final common pathway in the cardiovascular continuum of all cardiac diseases. It has emerged as the new epidemic stressing health resources in our country. Heart failure carries a high morbidity and mortality, especially in our country. The theme of this meeting is Improving Outcomes in HF in India.

This conference will provide a fertile arena to learn from masters in heart failure care across the globe on improving outcomes in your patients. There will be greater emphasis on case based management (than didactic lectures) and debates/panel discussions on contentious topics. Symposia, training villages with hands-on simulator training in device therapy, Fellows' course and research opportunities in heart failure are the other highlights of the meeting.

The conference will be a journey through the science of heart failure from basics to the highly advanced heart failure care management. New and emerging therapeutic modalities will find a special attention and there will be opportunities to further your knowledge in these areas.

We assure you that you would be rewarded with new insights and scientific wisdom in heart failure management to improve outcomes of your patients, which is the goal of the conference.

We look forward to see you at the beautiful city of Kochi in July 2019
